

LUIS ARTURO GONZALEZ VALENCIA

Full-Stack Developer

About Me

Software Development Leader with over 10 years of experience producing and updating SaaS systems, optimizing structures and processes to accomplish customer targets and promote company loyalty.

Expert in diverse programming languages like TS, JS, C#, Php, SQL and Frameworks like Angular, .Net, VueJs, Ionic, Codeigniter. Currently working mainly with Angular.

Proactive and fast learner. Like to keep up to date with new technologies and languages to always have quality software.

Experience

Full Stack Engineer

2022 - Currently

LogicCadence - United States of America

- Currently working with Tennessee Book Licensing client ClassGather (classgather.com) on their management system.
- Designed and implemented scalable application components with Angular.
- Updated old code bases to modern development Angular standards.
- Collaborated with project managers to select ambitious, but realistic coding milestones on prerelease software project development.
- Adopted engineering best practices and delivered highest quality scalable solutions.
- Paired with fellow developers to brainstorm ideas, debug problems and review code.
- Completed full redesigns of existing web systems to improve navigation and enhance visuals.
